After an amazing vacation, a lot of homeowners are overcome with that old familiar feeling of not wanting to return to "normal" everyday life. Where are the never-ending water features and outdoor fun? Where are the accommodating staff members asking if they can do anything more to make your experience more enjoyable? Reality sets in and the water features become a washing machine and shower, the refrigerator becomes the closest thing to a "wet bar," and your family's responses to your needs are less than accommodating. Vacation is over, and so are the lazy days filled with rest and relaxation.

It is back to business as usual. Weekdays that seem to drag on and weekends that seem to be over in the blink of an eye. Gone are the easy breezy feelings that come along with vacation. You and your family long for those days, and wonder if it is possible to recreate those feelings again without having to get on a plane or rent a hotel room.

This is when the wheels start turning in your head. How can I create a resort-like feeling in my own backyard? Over the years you may have visited friends' homes and admired beautiful backyard pools, fire pits, and even outdoor kitchens and bars. Is this the start to planning for yourself, why can't I create a space I would never want to leave, and would look forward to coming home to all year round?

Well, you can with Cambridge Pavens with ArmorTec! Visit our online today to find an authorized distributor near you. Here you can begin your journey by looking at all of the colors, sizes, textures, and products we offer. Next, you can meet with a contractor who will be able to help you create a space that fits your vision and can even show you digital designs based on your current backyard space.

Even if you cannot execute the whole project all at once, just know that in time and with proper planning you will accomplish your end goal. Your contractor can work with you in phases that will accommodate your budget, which will make the whole process seem way less overwhelming.

Therefore, my advice to anyone who is looking to extend their living space beyond their four walls is to visit Cambridge Pavens' Website. This is the first step in creating the perfect stay-cation in your very own backyard.

Thank you for considering Cambridge.

Charles N. Gamarack
Founder/Chairman/CEO, Cambridge Pavens Inc.
Trust Our National Brand Recognition

Nationally known television shows such as NBC’s Today Show, ABC’s Concept Home and HGTV’s Curb Appeal as well as editors of publications such as The Wall Street Journal, This Old House, The New York Times, and New York Newsday have helped spread the word about Cambridge Pavingstones with ArmorTec®. Cambridge is a premier manufacturer of products for all of your outdoor living needs. We believe in providing our customers with exactly what they expect...the very best, because the Best Outdoor Living Ideas come to life with Cambridge!
These Cambridge Pavingstones with Armortec® Don’t Look a Day Older Than When First Installed... **13 Years Ago!**
PAVINGSTONE WITH ARMORTEC®
Installed in a residential driveway in June 2008 (photo taken January 2010).
After many years of outstanding performance and beauty, Cambridge Pavingstones with ArmorTec remain recognizably smooth and dense with rich color. The remarkable benefits are a result of a proven formula used in manufacturing ArmorTec—only superfine sand, granite and granite, one of the world's hardest rocks (WITHOUT ANY small and large stone particles) and cement of the highest quality.

PAVINGSTONE WITHOUT ARMORTEC®
Installed in another residential driveway in November 2008 (photo taken Jan. 2010).
Without ArmorTec, the pavingstone will look like as the sand, cement and color wear off. Small holes (called) were on the pavingstone without ArmorTec; detract from the appearance of the surrounding surface areas and contribute further to their worn look. Stone particles in various sizes become exposed on the surface leaving it rough and worn looking.

*Shown is a Cambridge Pavingstone intentionally manufactured without ArmorTec installed in 2008.

WWW.CambridgePavers.com
Presented on the following pages, and comprising the full selection from The Ledgestone Series, are groups of uniquely different Cambridge shapes, surfaces and Design Kits. The exciting patterns and other DesignScaping possibilities are captivating the creative motivations of professional landscape architects, designers and hardscape contractors.
Dimpled, embossed surfaces gently roll into soft, beveled edges on straight-sided Cambridge Shapes with ArmorTec. This ever popular collection also includes Design Kits, which can be integrated into, or used to create, unique pattern designs.
The walkways, piazzas and roadways of the European Renaissance provided inspiration to Cambridge designers when developing these aged shapes and Design Kits with ArmorTec®. Each offers the look of naturally aged stone to complete historic, vintage or contemporary landscapes.

With a new sense of geometric scale and versatility, the three shapes, which vary in size (small, medium and large), can be arranged in an array of designs. The overall visual impression of natural stone is beautified even more when complemented by Cambridge Outdoor Living Room Components that incorporate Olde English Wall™.
These five classic, straight-sided Cambridge shapes with ArmorTec®, featuring beveled edges and smooth, flat surfaces, are offered in a choice of square and rectangular configurations. These popular pavers can stand alone or be incorporated as a border or inlay to complement a variety of designs.
These Cambridge shapes with ArmorTec® have beveled edges and flat surfaces but are distinguished by their angles and form, inspiring unusual pattern ideas. Create a unique and one of a kind design with these versatile shapes.

AMARILLI COLORS
For color matching in a selected design, also refer to the Color Selection Guide on Page 142.
This collection comprises Cambridge Shapes specially designed for specific structural, landscape and pavement applications such as steps, pool coping and facing. Straight, curved, circular and serpentine designs can easily be created with our Ledgestone and Bullnose pavers.
A Permeable Pavement System from Cambridge is an economically smart decision for the rapid removal of storm water on driveways, parking lots and roads. By allowing for natural drainage and ground water recharge, water runoff is reduced affording outstanding economical benefits over a 30-year life-cycle cost analysis. Land planning is augmented from the elimination of retention ponds. This system can be categorized as structural BMP (Best Management Practices). All rain water is filtered through the Cambridge Permeable System before it enters nearby streams and rivers.

- 30” diameter table ring in choice of Black & Lava, or Venetian Gold Granite
- Natural gas, liquid propane conversion kit available
- 30” W. 10” Penta Burner produces even flame in flower-like pattern
- Includes two male Lifeglass fire beads optional - 68” wide required
- 20” inside diameter, 68” outside diameter, 29” high
- Shown in Infinity/Glass with Granite Table Ring/Black & Lava & Bullet Nose Insert/Alabaster Sand

- Shown in Natural/Glass with Granite Table Ring/Venetian Gold & Bullet Nose Insert/Chestnut

CHOOSE AN OPTIONAL CAST STONE OR GRANITE RING KIT FOR YOUR FIRE PIT
Designed for Olde English and Pyzique Round Fire Pits. Cast Stone available in Belgium or Chestnut (3 pieces). Granite is available in Black, Lava or Venetian Gold with a polished finish (5 pieces). The Cast Stone Ring increases the height of the kit by 2.5” & the Granite Ring increases the height of the kit by 1.5”.

Cast Stone or granite ring kit to be purchased and installed at the same time as the fire pit because dimensional installation requirements for these products (fire pit and ring, respectively) require coordination.

CAMBRIDGE GLASS FIRE BEADS

Optional Colors: Fire Stone (Neutral), 50 lbs. - “Round Fire Pit” 50 lbs. - Square Fire Pit 75 lbs.

Order separately; these specially designed, oval shaped fire beads reflect light and sparkle on the outside when the flame is lit. Their unique shape allows the flames to move freely between each bead following the smooth contours to create a dancing liquid displays. Choose from Diamond, Aqua and Emerald. Final color can be varied to create unique designs.

AVAILABLE GLASS BEAD COLORS

Diamond, Aqua, Emerald
WOOD-BURNING FIRE PITS

Pre-Packaged Olde English Square Fire Pit Kit
- Optional Grate Insert turns Fire Pit into BBQ
- 23” inside dimension, 58” outside dimension, 12” high
- Shown in Santestone Blended

This optional galvanized steel cover prevents dirt and debris from entering the fire pit when not in use. Fits onto all Square and Round Barbeque & Fire Pit Kits.

*Note: Do not use for wet damage for Spark Screen. It has been specifically designed and engineered for containing sparks and embers only.
PERGOLAS & PAVILIONS

Arlequin Pergola
Simple sliding panels allow you to easily decide where you want shade. In one smooth action, less here, more there—everything is possible. Panels can be gathered together for maximum light, but when they are completely spread, the Arlequin offers full protection from the sun. Play with colors and designs as easily as you play with light and shade. Choose the color of each individual panel before the pergola is installed and that gives you endless decorative combinations.

- Manual operation
- 8 different panel colors: limitless creative options.
- 10 year warranty on aluminum parts (structure) + 5 years on panels and mechanisms.
- Take advantage of an optional local installation service.

STANDARD SIZE OPTIONS:
- 10’ x 15’ (4 panels)
- 10’ x 10’ (2 panels)
- Custom sizes made to order.

STANDARD PANEL COLORS AVAILABLE:
- Grey
- White
- Beige
- Red
- Blue
- Green
- Yellow
- Brown
- Orange
- Black

Biodinamic Pergola
Our Biodinamic Pergola is innovative and original! And it gives you expanded space for outdoor living. The whole system is composed of individual blades, like Venetian blinds. Wind and rain? No need panic. With family or friends... be in good company whatever the weather. Now you can enjoy outdoor space with versatility like never before.

- Motorized operation with remote control wind and rain sensors
- 8 different panel colors to choose from.
- 10 year warranty on aluminum parts (blinds and structure) + 5 years on mechanisms.
- Take advantage of an optional local installation service.

STANDARD SIZE OPTIONS:
- 10’ x 15’, 20’ x 15’, (Custom sizes made to order)

STANDARD PANEL COLORS AVAILABLE:
- White
- Light Grey
- Anthracite Grey
Pre-Packaged Fan-Shaped Pergola
- Fits in an area 12’ x 8’ from corner
- Choice of two or four 10” diameter fiberglass Tuscan columns & bases (columns come in bone white)
- Columns can be set on any Cambridge WallStone Columns (not included)
- All components are pre-cut & drilled for easy assembly
- Size: 9’9” high; 9’2 1/4” wide (base & 1’6 1/2” feet)

100% Natural & Sustainable

It’s easy to “go green” with Cambridge at your side. Our interlocking concrete pavement systems with ArmorTec® and Wall Systems are earth-friendly, totally sustainable, recyclable and provide many environmental, social and economic benefits immediately and over their entire life cycles.

When selecting your choice of pavement, it is encouraging to know that:
- Raw materials used in mix formulas during our manufacturing processes are all natural and free of environmentally unfriendly contaminants.
- Cambridge maintains ongoing relationships with high-quality quarry store suppliers who adhere to strict, environmentally responsible practices.
- The Cambridge Color Lab uses only natural pigments in the development of our full spectrum of ArmorTec® shades.
- Architects, landscape architects, designers and contractors recognize Cambridge’s “green” products as compliant with “green construction” goals.
- Equally encouraging is the fact that Cambridge interlocking concrete pavement systems have become an economical alternative to petroleum-based asphalt for parking lots, roadways, fire lanes and many more commercial/municipal applications.
- Cambridge Permeable Pavement Systems, when professionally installed, can be categorized as a structural BMP (Best Management Practice) solution for the rapid removal of storm water.
- Cambridge Paver and Wall Systems can also be used to prevent erosion, another condition that threatens the environment.

Unlike many of today’s consumer products, environmental concerns are an integral part of the Cambridge brand. You won’t have to take a hike in the mountains to be in harmony with nature — just step outside your home where you will have created your own maintenance-free “green scape.” Turn to a professional contractor who can present viable, solutions-based options specific to your property.
Distinguished by its natural-looking rock face with bold ridges and deep clefts, Ledgestone Wall is a perfect accompaniment to the popular Cambridge Ledgestone Pavingstone series. The wallstones are one size and can be used in a variety of single-sided applications from a freestanding and retaining wall to steps and edging. The double-sided trapezoid shape of Ledgestone Radius Wall, allows for easy completion of straight, curved, circular and serpentine designs without cutting by alternating front and back sides.
Two versatile and simple to use modular wallstones with an aged natural stone appearance are double-sided and ideal for multiple wall design applications. The Olde English Wall shape is designed primarily for a straight wall. Cutting is required to execute a curve. The single, trapezoid shape of Olde English Radius Wallstone is also double-sided.
The unique design and versatility sets the Maytrx® Wall System apart. This multi-face system has four wallstones, each is a different size. The wallstones are offered in a choice of 3” or 6” thickness (a.k.a. Maytrx 3 & 6) and can be used with Cambridge & Stretcher Stone. Interesting patterns are created by randomly intermingling shapes (and thicknesses) in a wall design. Maytrx can also be used for steps. Add a matching Cambridge Column, Square Fire Pit, and Outdoor Fireplace Kits to enhance your project. Maytrx 3, Maytrx 6 and Stretcher Stone are available in Split Face & Renaissance with caps and corners. All can be used as a vertical wall with pins.
MAYTRX 6 SPLIT FACE

MAYTRX 6 RENAISSANCE

MAYTRX® DOUBLE-SIDED WALLSTONES

Available Colors:

PYZIQUE® DOUBLE-SIDED WALLSTONES

Create the wall, corner and cap all with one
wallstone. A Pre-Packaged Round Barbecue and
Fire Pit Kit is also offered. Pyzique is available in
Split Face and Renaissance styles.
Developed for the large, commercial Segmental Retaining Wall (SRW) market, Sigma single-sided wallstones provide advantages for smaller and larger residential wall projects as well. The system, available in Split Face and Renaissance in 6" and 8" heights with right and left manufactured corners, is especially ideal for taller, engineered retaining walls as shown. The hexagonal configuration allows for a wall design with a very tight radius.
**Sigma Wallstones**

For color availability in a natural shape, refer to the Color Selection Guide on Page 38.

**Cambridge Curbstone**

Achieve the look of Belgian block with this affordable, durable alternative to plastic edge restraint, aluminum and wood edging as well as concrete curb or toe.

**Cambridge Edgestone**

Ideal as edging for mulch beds, gardens, decorative gravel and more in lieu of concrete, clay brick, molded plastic and wood edging.
Molded from time-worn, natural stone found in lodges and valleys of native America, Cambridge Stone Veneer is offered in two distinctly different styles. Canyon Ledge retains all of the dimensional characteristics of the handpicked pieces from which it was cast, while the rustic look of Tuscan Fieldstone is reminiscent of rural, old country cottages.
Columns can play a vital role structurally, functionally and aesthetically in the design of wall systems, patios, outdoor living rooms as well as driveway, walkway & other entrances. Cambridge Columns excel with style, versatility and ancillary products that reach far beyond your expectations!
Cast Stone Column Caps
Caps are available in two dimensions: 26" x 26" and 36" x 36" in Bluestone and Chestnut.

Pre-Packaged Column Mailbox Kits
Includes a corrosion-proof fiberglass box with a powder-coated, forged metal door in an antique bronze finish. Complete with wallstones. Choose Mayaxx (Split Face or Renaissance) or Old English Wall. No cutting necessary. Caps are not included.

Pre-Packaged Column Kit
Each kit is conveniently pre-packaged with the required number (#2) of Cambridge® column wallstones to build one 20" x 20" column, a foot high above ground with one course buried. Cast Stone Cap not included. To add an electrical fixture, a 6" cavity is left in the center of the column for wiring. Shown in Split Face Gray/Natural.

Fully Assembled Grand Column
Made of Old English Wall with inset of Cambridge 4 x 4 Holland Pavingstones from the KingsCourt Collection. Available in 2 sizes: Large (26" x 26", 60" high) and Extra Large (40" x 40", 80" high). Shown in Extra Large with optional Column Mailbox insert.

Pre-Packaged Column Kit Cap & Hat™
This unique product group offers two choices to add the finishing touch to a column: a finished cap or without a second but dimension (i.e., Cap & Hat). Available in Split Face or Renaissance. Shown in Split Face Sahara/Chestnut.

Garden Gate Kit
Specially designed for exterior use, this stylish solid mahogany door and frame are relined and ready to install. It can also be stained or finished for your choice of final effect. A built-in lock provides security.
Durable Cast Stone Stairs, Palisades 4 Piece Set and Stepping Stones from Cambridge offer both beauty and convenience in addition to being a far more affordable substitute for natural bluestone, granite and other natural stone materials. The choice of colors, inspired from their natural counterparts, along with the variety of stylish options, will coordinate nicely with styles and colors of Cambridge Pavingstones and Wallstones as well as Cambridge Outdoor Living Products.
We’ll light up your life with our wide range of hardscape lighting for Cambridge Pavingstones, Wallstones and Outdoor Living Rooms. LED (Light Emitting Diode) lights from Cambridge meet the latest and most exciting technological advancement in the lighting industry. The small, solid bulbs are extremely energy efficient and long lasting. The four kits make LED benefits available for preferred outdoor applications and come complete with remote dimmer and patented Easy Plug™ Installation System allowing fixtures to be daisy chained together without cutting or splicing. A low voltage outdoor DC power supply (transformer) is included. Power supply cables in lengths other than those provided with each kit are available at an additional cost. Cambridge LED Lights must be used with the Cambridge recommended power supply.
**LIGHTING HARDSCAPE LIGHT KIT**
Showcase trees, walls, columns, and pillars without the fear of bulbs burning out. Cambridge LED Hardscape lights are rated to last 50,000 hours and are designed for easy removal and replacement. The T-cable extends 5 inches in two directions for proper placement.

**LIGHTING LED UPLIGHT KIT**
Uplights are designed to illuminate focal points such as trees, shrubs, and architectural details of your home more efficiently than traditional, incandescent flood lights. Each outdoor uplight kit includes four fixtures.

**LIGHTING LED PATH LIGHT KIT**
Brighten walkways and garden beds and accent lighting at the perimeter of virtually any outdoor pavement. Each Path Light Kit includes five die-cast aluminum fixtures available in choice of 2 styles (Classic and Flat).

**CAMBRIDGE 6 X 9 SOLAR LIGHT**
Virtually made in the USA! Easily... a more even surface glow throughout the solar panel. The dimensions are identical to our very popular Cambridge 6 x 9 panel which makes it easy to install in the field, as a border or to add on to an existing project.

**SOLAGLO PAVER™**
A sustainable alternative to both conventional color and AC-powered paver lights. No wires, no bulbs, no auxiliary components required. A tough and permanent, surface treatment that glows in the dark is permanently affixed by Cambridge to our 6 x 9 Luminaires.

#### CHOOSING A COLOR...

**WHAT ARE CAMBRIDGE BLENDS?**
Cambridge stones available in the blend are combined colors of solid colors available in the blend. The blended colors are created by combining a blend of two or three solid colors selected by the Cambridge color collection. They are mixed in equal amounts for an outcome that is truly unique to each pavement mix. Each spread is an equal amount of each color, however, the color may vary depending on the color used in the blend.

**ACHIEVING THE BEST COLOR DISPERSSION**
When spreading Cambridge Pavingstones, solid or blended colors over a wide area, ensure that by the end of the job, there is a blend of colors to achieve uniform results.

**MAKING AN ACCURATE SELECTION**
Final selections should be made from samples obtained from an Authorized Cambridge Distributor or professional paver/stone and wallstone contractors.

**SEE FOR YOURSELF...**

Only Cambridge has ArmorTec® and color throughout every pavingstone we make! In manufacturing Cambridge Pavingstones with ArmorTec®, a proven formula consisting of only superior fine and granular granite - one of the world’s hardest rocks - and cement of the highest quality are used in the unique mix design.

Custom colors are well endorsed with blue and black pigments do not leave color throughout.
